Product description:

These glasses consist of radiation blocking filters and an eco-friendly cardboard frame, and are primarily used for observing solar eclipses. Our solar eclipse glasses provide eclipse safety for viewing all solar eclipses. Solar eclipse glasses block ultra-violet, infrared, and visible light in compliance with EN ISO 12312-2:2015 transmission requirements for filters for direct observation of the sun, protecting your eyes and letting you view these spectacular natural phenomena. Eclipse viewing glasses allow you to view the sun in its natural orange color. It is important that solar eclipse glasses offer the highest levels of eye protection.

The product identified above is in conformance with Personal Protective Equipment Regulation (EU) 2016/425 and the Harmonised standard EN ISO 12312-2:2015.
